

Do you want to know how COVID-19 impacts the health of people with **Familial Cancer Syndromes?**

¿Quisiera usted completar una encuesta sobre COVID y Antecedente de Síndromes de cancer?

Help doctors find out by completing an **ONLINE SURVEY**

Participants who complete the study will be entered into a gift card raffle.

The survey will take around **30 minutes** and will help researchers understand how COVID-19 affects different health communities, including long-haul symptoms and vaccines. We will study the impact of rare and common disease as well as sociodemographic factors.

To participate, follow this survey link: *(Para participar, siga este enlace)*

https://redcap.link/covid_in_communities_spring_21

This study is coordinated by **NIH scientists**: Dr. Beth Kozel (NHLBI), Dr. Robert Hufnagel (NEI), and Dr. Tiffany Powell-Wiley (NHLBI) in collaboration with numerous NIH physicians/researchers and community advocacy groups.

If you previously filled out this survey in Fall 2020, a personalized survey invitation with a shortened questionnaire will be emailed to you.
